About Centered Riding: Centered Riding is a way of teaching and learning in which the focus is on the six basics – breathing, soft eyes, body alignment, centering, grounding, and clear intent. Centered riding was developed by the late Sally Swift, the author of the Centered Riding I and II. Centered Riding incorporates body awareness, functional anatomy, and techniques from sports psychology and the martial arts. Learn more about Centered Riding at www.centeredriding.org

For more information on Susan Harris and Peggy Brown see alysculhane.com/centeredriding2017clinc.html

Made possible through a generous grant from the Dressage Federation. Ongoing support is also provided by the Alaska Dressage Association. For information, contact Alys Culhane (Centered Riding Instructor, Level I): alysculhane@hotmail.com | 745-4747 (Full payment needed by May 1, 2017)
